Yellow-Fever. A SHOOTING AFFAIR-VISIT TO CAMP MARKS-A DESCRIPTION OF THE CAMP-RATIONS-THE FEVER MORE THAN ONCE-BFFORTS TO

PRESERVE THE PEACE. MEMPHIS, July 31 .- The only incident that relieved the monotony of yesterday was a shooting affray which occurred in the afternoon at the corner of Hernando and South streets, and which has already been telegraphed. Frank Beamish, a printer employed in the Appeal office, was shot by C. B. Hammer. The cause that prompted the attempt at murder was the refusal of Beamish to deny a statement be had made of kissing a young lady-the aunt of Ham-

#### A VISIT TO CAMP MARKS.

Camp Marks is the point the city authori ties are now bending every energy to remove the poor masses. A trip was made there yesterday on a special train furnished by the Mississippi and Tennessee railroad in company with Mr. D. T. Porter, the chief executive of the city; Mr. A. D. Langstaff, president; General W. J. Smith and Colo-J. H. Edmondson, vice-presidents of the Howard Association; Colonel John F. Cameren, commander of the military, and about twenty citizens belonging to the several relief committees.

#### DESCRIPTION OF THE CAMP.

The camp is beautifully located on a high ridge, six miles south of Memphis. There are 300 tents erected, nearly all of which are occupied. The tents have been arranged with a view to the comfort of the occupants, those for families being separated from the others by a wide avenue, called Corcoran avenue, in honor of W. W. Corcoran, the wealthy banker of Washington, D. C., who sent \$2,000 to the authorities to be used in depopulating the city and sending the inhabitants to a place of security from at the camp a large hospital, which will be complete in every detail, and in which the sick will feel the conveniences of a metropolitan institution. Dr. W. E. Rogers is the surgeon-general in charge, assisted by Dr. J. E. Abererombie. Sinks have been dug in which all slops are thrown and covered over with fresh dirt. Several large springs of pure water adjoin the camp. A deep ravine separates Camp Marks from another ridge, on which is to be erected another camp especially for the blacks, and which will be known as Camp Douglass, in honor of Fred. Douglass. Mr. P. M. Robbins is clerk in charge of the camp, and is assisted by O. M. Tufts.

### RATIONS FURNISHED.

Of the 200 now in camp not exceeding a dozen are colored. But it is expected, when the course of the whites.

## THE FEVER MORE THAN ONCE.

Those who had the fever during previous epidemics were thought to have immunity from the disease until to-day, when it became known that Samuel Hatcher, who is dying with the fever, had a severe case last year, and had a typical case in 1873. This goes to prove that no theories hold good so far as yellow-fever is concerned. Every one advanced by the most learned physicians have been upturned too late.

PREPARATIONS TO PRESERVE THE PEACE. In addition to the police and fire departments, numbering 92 men, Colonel Cameren has enrolled 150 minute-men, composed largely of old soldiers, who will assemble at a given signal to aid him in the maintenance of law and order and the protection of pro- his residence, near this city, this morning perty. He has two twelve-pound Napoleon | aged forty-six. guns, served by experienced artillerymen. The police-station has been designated as the arsenal and place of rendezvous. FIVE NEW CASES AND THREE DEATHS AT MEM-

PHIS YESTERDAY MORNING. MEMPHIS, July 31 .- Five new cases of yellow-fever were reported to the Board of Health this morning, four of whom are colored. Three deaths have occurred-Michael Athey, brother of Chief-of-Police Athey; Brooks Wilson, telegraph-operator, and C. S. Forbes. The latter resides beyond the corporation line. The wife of Chief-oflast night at Raleigh, Tenn: His daughter Eudora is in a dying condition. The weather is clear and warm, which is favora-

ble to the spread of the fever. THE MEMPHIS NEGROES OPPOSE THE CAMP SCHEME.

MEMPHIS, July 31 .- A large meeting of colored people was held at noon to-day at Cochran's Hall, and resolutions were adopted opposing the removal of the blacks to camp, and expressing their determination THE UNITED STATES CONSUL AT GIBRALTAR to appeal to absent merchants for assistmice. The sentiment of the meeting was strongly opposed to the camp scheme. LATEST FROM MEMPHIS-FOUR MORE CASES

AND ONE DEATH YESTERDAY AFTERNOON. MEMPHIS, July 31.-Four more cases ere reported to the Board of Health this afternoon-viz., James Hester, Jerry Croden, Rachel Taylor, and Mary Taylor. One additional death has occurred-M. Dupratt,

residing six miles from the city. The Howards have placed four physicians on duty to attend the indigent sick.

BULFALO LITHIA WATER BUFFALO LITHIA WATERS MALARIAL POISON.

THESE WATERS TESTED IN A CASE OF YEL-

LOW-FEVER. EXTRACT FROM A LETTER OF DR. WILLIAM T. HOWARD, OF BALTIMORE, propessor of direases of women and chil-dren in the university of Maryland, of August 1, 1879.

Dr. Howard compares those waters with those of the reichtrated Greenbrier White Sulphur, West Virgins, and add the following:

"Sideed, in a certain class of cases, it is much superior to the latter. I allude to the abiding debility attendant upon the tardy counslescence from grave actic diseases; and more especially to the cachesing and sequels incident to Malarious Fevers in ALL THEIR GIADES AND VARIE-TIES, to explain forms of alouis dyspepsia and ALL THE AFFECTIONS PECULIAR TO WOMEN that are rementable at all by mineral waters. In short, were I exiled upon to state from what mineral waters I take seen the greatest and most unmistakable ansunt of good accrue in the largest number of cases in a general way, I would unheritatingly say the Bufalo Springs, in Mecklenburg county, Fa."

EXTRACT FROM A COMMUNICATION OF DR. JOHN W. WILLIAMSON, OF JACKSON, TENN. ON THE THERAPEUDIC ACTION OF THE

BUFFALO LITHIA WATERS,

IN VIRGINIA MEDICAL MONTHLY FOR PEB-RUARY, 1877;

"Their great value to Malmital Diseases and Sequels has been most abundantly and satisfactorily issted, and I have no question that it would have been a valuable auxiliary for the treatment of the epidemio of yellow-fever, which so terribly afflicted the Mississippi Valley during the past summer. I prescribed it myself, and it gave prompt relief in a case of suppression of undur in yellow-fever, and decidedly mitigated other dispressing and dangerous symptoms. The patient recovered, but how far the water may have contributed to that result (having prescribed it in but a rangle case) I of course camput undertake to say. There is no doubt, however, about the fact that has administration was attended by the most beneficial results." IN VIRGINIA MEDICAL MONTHLY FOR PEB-

TERBURY, OF ESTELL, MISS., DATED JULY 9, 1879: "I have found the Builalo Limin Waters invalua-ble in all diseases having their origin in malariat poison. Indeed, they seem almost specific in dis-cases of this character. I believe that persons re-siding in the most malarious districts might find to a great extent immunity from malarious fevers and their attenuant evils by the free use of these waters during the seasons of the year specially calculated to give rise to them."

EXTRACT FROM A LETTER OF THE LATE DR. THOMAS P. ATKINSON, F DANVILLE, VALUEX PRESIDENT STATE MED-ICAL SOCIETY, OF AUGUST 15, 1874. "The Lithia Waters have unquestionably displayed great power in the peculiar diseases of the warm, minamatic regions of the South, which may be grouped together under the head of Malarial Cachexia, covering hepatic engogements, enlargements of the onless and head of Malarial Cachexia, covering hepatic engogements, enlargements of the onless, and have a summatically resisted and the same time, however, it is certainly true that in Internituent and Remittent-Fevers, in a chronic form, they have in numerous instances given reflet in cases which had obstinately resisted all the anti-periodic drugs of the shops. From my experience with them I feel fully warranted in saying that, with rare exceptions, wherever elsease is found originating under malarial influence, a potent remedy may be found nalarial influence, a potent remedy may be found

WATERTOWN, NEW YORK

TO WATER-CONSUMERS.

OTICE.—The condition of the river at of ICE.—The condition of the river at this time is such, from the excessive dry spell, as to call upon the citizens to exercise the greatest possible economy in the use of water. The pumps, when the river is fall, are barely able to keep up the supply, and now that their power is lessened quite a third, the city must to a greater or less extent suffer on the higher points. Every effort is now being made to keep up the sopply. The dry season having commenced so early this year, we may reasonably anticipate, without rain, the river will be lower than that here no reverse perhaps than it ever was behas been for years-perhaps than it ever was pefore. It is argently requested that every precaution will be used to avoid a calamity that seems probable.
